

**LE FABLIER**

VALORI PER SEMPRE

## IL LEGNO

Dal legno parte l'idea della collezione City, dal desiderio di valorizzare al massimo tutte le peculiarità di questo affascinante materiale. Per conservarne in pieno il suo fascino abbiamo deciso di lavorarlo solo lo stretto necessario per assicurare la durabilità degli arredi lasciando intatti nodi e fessurazioni che sono caratteristiche intrinseche del legno utilizzato, sono tratti unici della sua crescita, del trascorrere del tempo, sono la sua identità e la sua bellezza.

## *THE WOOD*

The idea of the City collection starts from wood, from the desire to make the most of all the peculiarities of this fascinating material. To fully preserve its charm, we have decided to work it only as strictly necessary to ensure the durability of the furnishings, leaving intact knots and cracks that are intrinsic characteristics of the wood used, are unique traits of its growth, of the passage of time, are its identity. and its beauty.

## LA FILOSOFIA

La bellezza sta nell'unicità. Nel mantenere il più possibile al suo stato naturale la materia esaltandone venature e texture per trasmettere al tatto ed alla vista quanto di bello la natura abbia creato. Così la collezione City presenta finiture leggere, minimamente coprenti, capaci di trasformare un nodo in una preziosa gemma che arricchisce l'opera in cui è incastonata.

## *PHILOSOPHY*

Beauty lies in the unicity.

Keeping the material in its natural state as much as possible, enhancing its veins and textures to convey the touch and sight of how much beauty nature has created. Thus the City collection presents light, minimally opaque finishes, capable of transforming a knot into a precious gem that enriches the work in which it is set.

## LAVORAZIONE

La cura e l'attenzione artigianale di ogni passaggio dà vita ad un prodotto finale in cui il legno risulta essere l'assoluto protagonista in tutta la sua bellezza.

Esperte maestranze seguono ogni fase della lavorazione, dal taglio dei tronchi al prodotto finito, per assicurare un risultato di assoluta eccellenza.

## *PROCESSING*

The artisan care and attention of each step gives life to a final product in which wood is the absolute protagonist in all its beauty.

Expert workers follow every stage of processing, from cutting the logs to the finished product, to ensure a result of absolute excellence.
